Bloomfield Record.

Bloomfield, N. J., July 3, 1889

There is a marked contrast between the way in which the presidential candidates have been treated by the secular and by the religious press. The secular press has been the agent to the daily news, papers for opening the batteries of hatred upon the candidates of the opposing party. But on the part of the religious weeklies a commendable sense of justice and fair dealing has been shown. The extracts from these periodicals which we make on another page show that a calm and truthful survey of the political situation does not indicate that either party is very much in error so far as its candidates are concerned.

Bloomfield is furnishing many profitable weeks of its being a town of enterprise and public spirit. We have to have an unusual celebration of the Fourth, the new flagpole has been bought and erected, and several other projects have been set on foot. The matter we can bring out to town to the interest and healthy excitement of the great title, the better. There are all degrees of life and they who live most intensely live longest, strongest and happiest. Statistics show that the average length of life in this is greater than that in the country.

Mr. B. H. Clark of Bloomfield has begun the publication of a new weekly paper in New York entitled "The Leader." The first copy of which appears this week. It is very ready gotten up. We wish the editor success in his new undertaking.

After a series of failures the Yale University has now secured a victory over their old antagonist, Harvard, at New London, Thursday. The stroke of the Yale crew was Harry Titus Folson of Orange.

THE BLOOMFIELD RECORD. I would like to know how and why the record of the day is made. I think it is the duty of the press to give the public the facts of the day, and to give them in a way that is interesting and instructive. I think it is the duty of the press to give the public the facts of the day, and to give them in a way that is interesting and instructive.

NEW TESTAMENT REVISION. It is interesting to find that the New Testament of the American and English versions is what is known as the Anglo-American revision of the Scriptures. This revision was made by a committee of the American Bible Society, and was published in 1886. It is a revision of the King James Version, and is based on the latest researches in biblical scholarship.

THE BLOOMFIELD RECORD. I am sure the teachers have every reason to feel very much gratified by what they have accomplished in the past year, and I hope when another ten months have rolled by and teachers are again upon their knees to parents and friends, there will be no need to accommodate the thing assembled in to know to school what the people should do in the future.

RELIGIOUS NOTES. There are now 60 Protestant churches in Spain, whose congregations aggregate 30,000, and are rapidly growing. In laying the cornerstone of the new cathedral at Truro, the Prince of Wales used the historic mallet with which Charles II laid the foundation stone of St. Paul's.

RECENT NEWS FROM THE REV. EDWARD EGGLETON OF BROOKLYN, who went abroad some months ago for his health, does not indicate that he is recovering, as it was hoped he might recover from the influence of change, travel, and rest from severe labor.

It is known that the Protestant Church has made considerable real progress lately during the past score of years, but most readers will be surprised to learn that there is now hardly a town in Italy, even of secondary importance, which does not possess at least one Protestant Evangelical church, and it was only twenty years ago that the preaching of Protestantism was first permitted in that country.

THE BLOOMFIELD RECORD. I have been very much interested in the report of the Board of Education for 1888, to wit, that an average of 100 children attend private schools than any other large district in the country, showing that our schools are doing better than our neighbors. I have been very much interested in the report of the Board of Education for 1888, to wit, that an average of 100 children attend private schools than any other large district in the country, showing that our schools are doing better than our neighbors.
